

Compression Experts

High-performance, standard or custom-engineered, small to large HP compression packages for clients around the world.

We offer a full range of reciprocating, rotary screw and rotary vane compressor packages, ranging from 5 HP to 8,000 HP. We are licensed to work with the most established and reliable brands in the world, including Ariel, CAT, Frick, Ro-Flo and Waukesha.

Tailored engineering and design

We approach each job with a commitment to building value for our customers by delivering products of unmatched quality that meet their specific needs and expectations. Our highly-skilled team of experts has a deep understanding of the industry and we're able to provide both standard and engineered customized solutions.

Complete in-house solutions

We have 125,000 square feet of fabricating and packaging facilities, including our new 80,000 square foot facility. This purpose-built, state-of-the-art facility includes design, fabrication, assembly, sandblast and paint bays that enable us to seamlessly provide our clients with single-source solutions.

Our compression capabilities include:

- Reciprocating, rotary screw and rotary vane compressors
- Electric and natural gas engine drivers
- Variable applications:
 - › Natural gas gathering
 - › Storage/withdrawal
 - › Refrigeration compression
 - › Inlet/sales gas
 - › Recycle compression
 - › Overheads compression
 - › Vapor recovery compression
 - › Acid gas injection
 - › Gas lift/EOR
 - › Fuel gas boosting
 - › Landfill gas recovery
 - › Specialty applications (He, H₂, Air, CO₂)

With our Retrofit, Rentals and Parts + Service Divisions supporting our packages, we are committed to providing our customers with expert solutions and exceptional experiences through all stages of a project.
