

## Parts + Service

### Rapid and reliable field service for your process and compression equipment.

Our Technicians provide on-site mechanical and instrumentation services to maintain, repair, optimize, and overhaul your equipment. We also offer long-term maintenance contracts and component exchange programs to minimize equipment downtime, and to help you get the most from your equipment.

### Reliable field service on demand, any time

Experienced and skilled Field Technicians:

- OEM-trained
- CAT-3600 and Waukesha factory trained
- Ariel-certified
- PLC expertise

### Extensive parts inventory ensures you get the parts you need, quickly and efficiently

We have multiple locations throughout western Canada and the northwestern United States, including a 19,000 square foot overhaul shop and service facility in Grande Prairie, Alberta. Our fleet of service trucks, complete with specialty tooling capabilities, is ready to get our experienced mechanics to client job sites when needed.

### Robust parts and engine components inventory

We carry parts from the following OEMs:

#### Compressors

- Ariel (JGA-KBB)
- Frick
- Gardner Denver
- Mycom
- Ro-Flo
- Sullair
- GE Oil & Gas (Gemini)

#### Drivers

- Caterpillar (3300-3600)
- Cummins
- Waukesha

#### Plus:

Exchange engines and engine components

We offer quick response times through our strategically located service branches, overhaul shops and parts warehouses, decreasing your downtime and operating costs. We are committed to providing our customers with expert solutions and exceptional experiences through all stages of a project.
